

SAINT - CORNERSTONE OF SOUTH AFRICAN NON-DESTRUCTIVE TESTING YEARBOOK 2016/2017

We want to raise the profile of NDT and the extremely important role that it plays in industry.

We want to bring home to our engineers and managers in industry that professional NDT is required in most plants and processes, and that our publication can assist such decision makers by providing a thorough understanding of what NDT is about and what advantages it can offer to their industries.

With this glossy, “bigger and better” book, you will note that we inform you about SAINT’s Footprint: where we fit in within the International Community; our Professional Body; our Training Bodies and our National NDT Certification and Professional Designation Scheme.

SAINT

Cornerstone of South African
Non-Destructive Testing
2016/2017

SAINT is the South African Institute for Non-Destructive Testing formed in 1968 and made up of persons involved in Non-Destructive Testing (NDT) in South Africa and neighbouring countries.

It is governed by its constitution and an annually elected council where "all members" are volunteers.

SAINT is registered with SARS as a Non Profit Organisation.

SAINT - CORNERSTONE OF SOUTH AFRICAN NON-DESTRUCTIVE TESTING YEARBOOK 2016/2017

"It is with great pleasure that I introduce you to the second edition of the SAINT Yearbook.

This book, the 2016/2017 version promises to be one that is jam packed with important information regarding all aspects of NDT.

It is our aim that all the information presented therein may be used as a guide when contemplating the use of NDT as well as for those who practice NDT as a profession or career."

Keith Cain - President
